Home Security Starter Kit (SK-200)

Easily setup the Home Security System and start securing and monitoring your home.

Other Kits

3 Way Control - Dimmer | SK-7

Add a three Way-Switch without wiring. Replace your existing wall switch and place your wireless switch anywhere you like. Easy installation without neutral wire.

Motion Control Lighting | SK-9

Save energy by simply screwing in the control unit to your lamp socket and automatically turn lights on and off with body movement.

3 Way Control - On/Off | SK-8

Add a three Way-Switch without wiring. Replace your existing wall switch and place your wireless switch anywhere you like. Easy installation without neutral wire.

Motion Control | SK-10

Plug in the lighting fixture or small appliances to the Plug In Receiver and turn ON/OFF automatically when movement is detected.

Smart Home, Made Easy!

Control and monitor from anywhere in the world.

Internet Hub HU-100

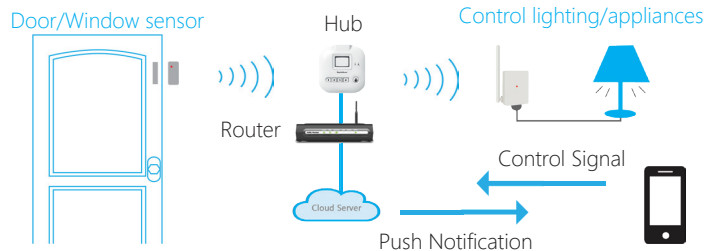

The Internet Hub, which connects to your home's router, is the brain of your Home Automation System and coordinates the activities of all receivers and sensors.

IP-Camera WC-200

Monitor your home on your smartphone wherever you are. It will automatically record the video when motion is detected and play it back on your Smartphone.
