

Features

Four Zone Settings

Sensors can be programmed to four different zones.

Visual Warning

The receiver's red LED will flash when sensor has been triggered.

Supervised Sensor

Receiver alerts once connection has been lost with the sensor.

Alert Warning

The audio indicator will emit a beep or a siren sound.

Expandable System

The system works with up to 16 sensors.

Operating Range

The operating range is up to 800 feet in an open area.
